## **ACKNOWLEDGEMENT**

Salutations to our beloved and highly esteemed institute,

**“Ballari Institute of Technology & Management”** for having well qualified staff and labs furnished with necessary equipment.

We express our sincere thanks to our guides **Asst.Prof. Sreenivas M** and **Asst.Prof. Sheetal J.** for giving us constant encouragement, support and valuable guidance throughout the course of the project without whose stable guidance this project would not have been achieved

We express wholehearted gratitude to **Dr.R.N.KULKARNI** who is our respectable HOD of Computer Science Dept. We wish to acknowledge his help who made our task easy by providing with his valuable help and encouragement.

And also our due thanks to **Dr.V.C.PATIL**, the principal, as we consider ourselves very lucky to have such excellent computing facilities and their inspiration throughout our professional course.

We also thank the non-teaching staff of CS Dept. who guided at the time of difficulties.

Finally we thank all those who are involved directly and indirectly in completion of our project.

-M Ramakrishna

- Mallikarjun J

A MINI PROJECT REPORT ON  
*“Road Accident Management System”*

## **ABSTRACT**

The project entitled as “ROAD ACCIDENT MANAGEMENT SYSTEM” helps us in storing the information about vehicle that has met with an accident in a digital way. This project gives us a clear picture on how the data is stored and accessed digitally. Some operations on data are performed in this project in an efficient manner. The main aim of this project is to store the details of the road accident vehicles and provide these details to the transport authority officials at a given particular date.
